

<b>DELINEATION OF PRIVILEGES - NEUROLOGY</b> For use of this form, see AR 40-68; the proponent agency is OTSG <i>(DA Form 5504A-R Must be Completed and Attached to this Form)</i>		REQUESTED BY	DATE		
PRIVILEGES		RECOMMENDATIONS BY DEPT./SVS. CHIEF			
<b>Assignment of clinical privileges will be based on education, clinical training, &amp; demonstrated competence. Neurology clinical privileges are divided into four major categories. The category of privilege requested should be specified.</b>		APPROVED WITHOUT LIMITATION	APPROVED REQUIRES QUAL. SUPRV.	APPROVED WITH MODIFICATIONS	NOT APPROVED
<b>Category I.</b> Emergency Care Uncomplicated illnesses or problems which have low risk to the patient such as recurrent headache or uncomplicated epilepsy or with no available treatment such as completed ischemic stroke, progressive dementia in the elderly, and cerebral palsy.  Internists, pediatricians, family practitioners, and psychiatrists where neurology training has been included in their residency experience.					
<b>EXCEPTIONS (Recommended by Department Chief)</b>					
<b>Category II.</b> Category I Major illnesses, injuries, conditions or procedures with little immediate risk to life, in child or adult such as multiple sclerosis, Parkinson's disease, and transient ischemic attacks. Management of crippling or life threatening disorder where category III and IV supervisor is available. Performance of EMG, EEG, evoked potentials and similar tests for which the applicant has had specific training. One year of general postgraduate education and two years of specialty training in adult or child neurology.					
<b>EXCEPTIONS (Recommended by Department Chief)</b>					
<b>Category III.</b> Categories I and II Management of all conditions affecting the nervous system in adults except for those patients requiring neurosurgical intervention. Management of common non-life threatening conditions in children. Completion of neurology training in adult neurology.					
<b>EXCEPTIONS (Recommended by Department Chief)</b>					
<b>Category IV.</b> Categories I, II, and III Management of all neurologic conditions affecting children except those children requiring neurological intervention (child neurology). Diagnosis and management of refractory seizure disorders, unusual neuromuscular disorders or other problems reflecting additional subspecialty skills. Individual patients display complexity exceeding those of Category III. Require post residency fellowships or child neurology residency/fellowship.					
<b>SPECIAL PROCEDURES. (Check the Procedures for Which Privileges are Requested)</b>					
a. Lumbar Puncture					
b. Cisternal Tap					
c. Subdural Tap <i>(Infants)</i>					
d. Electroencephalogram <i>(EEG)</i>					
e. Brain Stem Auditory Evoked Response					
f. Visual Evoked Response					
g. Somatosensory Evoked Response					
h. Electromyogram <i>(EMG)</i>					
i. Myelogram					
Other <i>(Specify)</i>					
<b>EXCEPTIONS (Recommended by Department Chief)</b>
